With over 5 years of work experience, I translate customer experiences and people skills to user-centered designs.

WORK EXPERIENCE

UX Design Volunteer — Orcasound

Sept 2021 - Dec 2021, Seattle, WA

- Attended daily meetings to discuss development and content strategy.
- Designed wireframe concepts, mockups, update design systems, and work in collaboration with other designers and engineers.

Administrative Specialist II — Asian Counseling & Referral Service

May 2019 - Present, Seattle, WA

- Manage the front desk by being primary point of contact for over 200 staff and 100 clients per day.
- Strategically coordinate with staff and directors to schedule rooms and events.
- Work with people that come from different backgrounds - many of whom are immigrants and other vulnerable populations.

Assembler I — Honeywell

April 2018 - April 2019, Redmond, WA

- Collaborated with engineers in troubleshooting bottlenecks that delayed production for weeks, resolution led to increased performance.
- Often would break down complicated concepts and procedures to coworkers who were not native English speakers.
